

ISMSC 2026: Putting the Inclusion into WISC

Wednesday 8th July, 1.30-2.30 pm, ENSEIRB-MATMECA on BordeauxINP campus

Help us shape the panel discussion by filling in this form:

<https://forms.cloud.microsoft/e/S2E6vECMgA>

WISC's Current Projects

- Community clusters centred around **Parenting**, **disability/chronic illness/neurodivergency**, **LGBTQ+**, **Chemists in Crisis** and **1st generation scientists**
 - Collaborative groups working on new solutions to the issues supramolecular chemists of these varieties and others may face
- **Peer mentoring circles**, matching small groups of researchers at similar career stages into a mentoring circle with a mentor of a more advanced career stage
